

WATER ENVIRONMENT FEDERATION OUTSTANDING PERSONAL SERVICE AWARDS

WEF honors and awards for outstanding personal service recognize service in the governance of the Water Environment Federation, outstanding achievement and contribution to the activities exemplified in the Federation objectives, achievements in increasing public awareness and action in water pollution control by persons outside of the technical field, and unusual effort and dedication toward the control of water pollution.

WEF HONORARY MEMBERSHIP

Honorary Membership is extended to persons who have proven their preeminence in the fields of activity encompassed by Federation objectives.

The recipient of this honor shall be elected for life, be awarded a plaque by the Federation, pays no Federation dues, and receives, without cost, those publications of the Federation that the Board designates.

Criteria:

1. Shall be a person of acknowledged eminence in one or more fields of activity within the scope of the stated objectives of the Federation.
2. As stated in the Federation Constitution & Bylaws, not more than three Honorary Members can be elected in any calendar year.
3. The ratio membership cannot exceed one Honorary Member to every 350 Active and Professional Wastewater Operations Members.
4. Election to Honorary Membership shall be by secret ballot vote of not less than two-thirds of the Federation Board of Directors. Not less than 90 percent of votes cast shall be affirmative.

The Body of the Nomination must include the following:

- One page biography of the nominee
- Specific reasons for nomination (one page maximum)
- Any other supporting material required under criteria or that might be helpful in the selection process.

Nominations Deadline: Nomination materials must reach the WEAT Awards Committee by March 1.

Send nine (9) copies of nomination materials to:

WEAT Awards Committee
Attn: Bob Hill, Chair
EMA, Inc.
1100 Chateau Woods Parkway
Conroe, TX 77385
Phone: 281-300-8367
E-mail: bhill@ema-inc.com

CHARLES ALVIN EMERSON MEDAL

The Water Environment Federation's **Charles Alvin Emerson Medal** commemorates the service of Charles Alvin Emerson who was the first President of the Federation, serving from 1928 to 1941, and was its first honorary member. This award is presented annually to the individual whose contributions to the wastewater collection and treatment industry most deserve recognition.

Criteria:

- I. Nominee must be a member of a Federation Member Association. *For example, the Water Environment Association of Texas is a Member Association.*
- II. Particular emphasis is given to the nominee's involvement in the problems and activities of the Water Environment Federation, including the stimulation of membership, improving standards of techniques of wastewater treatment, water resource protection, and fostering fundamental research.

The Body of the Nomination must include the following:

1. One page biography of the nominee
2. Specific reasons for the nomination (one page maximum)
3. Any other supporting material required under criteria or that might be helpful in the selection process.

Nominations Deadline: Nomination materials must reach the WEAT Awards Committee by March 1.

Send seven (7) copies of nomination materials to:

WEAT Awards Committee
Attn: Bob Hill, Chair
EMA, Inc.
1100 Chateau Woods Parkway
Conroe, TX 77385
Phone: 281-300-8367
E-mail: bhill@ema-inc.com

HARRY E. SCHLENZ MEDAL

The Water Environment Federation's **Harry E. Schlenz Medal** is in memory of Harry E. Schlenz, who served as Federation President in 1961-62. Mr. Schlenz was a distinguished leader in promoting public understanding of the need for effective water quality. Through his efforts a special award was presented by the Federation in 1967 to a writer for the Chicago Tribune for an outstanding series in that newspaper on water pollution control.

Criteria:

- I. Documented achievements of an individual who takes up the banner of water environment public education and presents it to the public in a productive process.
- II. Only individuals whose principal employment is outside the water environment profession are eligible for nomination.
- III. A nominee's contribution should be in the area of journalism, film or video production, or any other communication endeavor.
- IV. Nominee cannot be a member of the Water Environment Federation.

The Body of the Nomination must include the following:

1. One page biography of the nominee
2. Specific reasons for the nomination (one page maximum)
3. Any other supporting material required under criteria or that might be helpful in the selection process.

Nomination Deadline: Nomination materials must reach the WEAT Awards Committee by March 1.

Send seven (7) copies of nomination materials to:

WEAT Awards Committee
Attn: Bob Hill, Chair
EMA, Inc.
1100 Chateau Woods Parkway
Conroe, TX 77385
Phone: 281-300-8367
E-mail: bhill@ema-inc.com

RICHARD S. ENGELBRECHT INTERNATIONAL ACTIVITIES SERVICE AWARD

The **Richard S. Engelbrecht International Activities Service Award** (formerly the International Activities Service Award) was named in memory of Richard S. Engelbrecht, who served as Federation President in 1977-1978. This award recognizes sustained and significant contributions to the furtherance and improvement of the activities of the Water Environment Federation in the international field.

Criteria:

- I. Nominee must be a member of the Water Environment Federation (not restricted to members outside North America).
- II. Nominee must have demonstrated sustained and ongoing contributions, over a period of not less than five years, toward the furtherance and improvement of the activities of the Federation in the international field.
- III. Service should primarily reflect Federation activities outside North America.

The Body of the Nomination must include the following:

1. One page biography of the nominee to include membership history and general details of nominee's participation in committee and other Federation activities.
2. Specific details concerning the nominee's activities in the international field and the benefits derived or to be derived by the Federation as a whole from these activities.

Nomination Deadline: Nomination materials must reach the WEAT Awards Committee by March 1.

Send seven (7) copies of nomination materials to:

WEAT Awards Committee
Attn: Bob Hill, Chair
EMA, Inc.
1100 Chateau Woods Parkway
Conroe, TX 77385
Phone: 281-300-8367
E-mail: bhill@ema-inc.com

OUTSTANDING ACHIEVEMENT IN WATER QUALITY IMPROVEMENT AWARD

The Water Environment Federation's **Outstanding Achievement in Water Quality Improvement Award** is presented annually to the water quality improvement program that best demonstrates significant, lasting, and measurable excellence in water quality improvement or in prevention of water quality degradation in a region, basin, or water body.

Criteria:

- I. The program must lie within the boundaries of one or more Member Associations (*The Water Environment Association of Texas, for example*) sponsoring the nomination.
- II. A program is eligible during a three-year period immediately after documented results become a matter of public record. Re-nomination is permitted at any time during this three-year period.
- III. Nominations must be submitted by a sponsor to a Member Association within whose boundary the head office of the sponsor is located. The sponsor should be the entity with the greatest and most direct responsibility for successful completion of the program.

Examples of acceptable sponsors:

- a. The owner of the works that achieved the results meriting the program's nomination.
- b. Local, regional, state, or interstate agencies responsible for the creation, financing, implementation, and regulation of a program that involves numerous discrete projects with different owners.

Examples of unacceptable sponsors:

- a. Legislative bodies.
 - b. Federal agencies with second-tier responsibility for regulation or funding.
- IV. Each Member Association may nominate one program each year. If more than one program within the boundaries of a Member Association is eligible for nomination, the Member Association shall make its own selection of the most suitable entry for the year.
 - V. Specific programs may receive the award only once.
 - VI. The award will be made for the program itself, rather than the entities responsible for the program development and implementation. The award is open to programs of any size. The award plaque will be presented to the sponsor, and the award citation will acknowledge all principal responsible entities that contributed to the success of the program.
 - VII. The program must have achieved the qualifying results through construction and/or operation, rather than solely through the application of administrative procedures.
 - VIII. Examples - The following programs would have been eligible for consideration had the award existed when those programs were completed:
 - a. The Seattle Metropolitan Sewerage System and the consequent ecological recovery of Lake Washington. In this case, the sponsor would logically have been Seattle Metro.
 - b. The San Diego program that removed sewage discharges from San Diego Bay and resulted in the ecological recovery of the bay. In this case, the sponsor would logically have been the City of San Diego.
 - c. The Ocean County Utilities Authority (Bayville, New Jersey) program that cleaned up Barnegat Bay and the Atlantic beaches and restored large shell fishing areas.

The Body of the Nomination must include the following:

Each entry shall be in the form of a notebook prepared by the sponsor that will be used to screen the total number of entries to three or fewer. The finalists may be requested to submit additional information. Seven (7) copies of the notebook shall be submitted. Each notebook shall include:

1. A one-paragraph letter of transmittal from the Member Association placing the entry in nomination.
2. The name and location of the program being placed in nomination.
3. The name of the sponsor.
4. The name, address, and telephone number of the representative of the sponsor who will be responsible for supplying additional information about the program.
5. A one-page executive summary of the program.

Page 2 WEF Outstanding Achievement in Water Quality Improvement Award Description

6. A definition of the water quality problem that the program has controlled, including quantitative information on the problem.
7. A description of the program, including:
 - a. Chronology from the definition of the problem to the completion of the project or program.
 - b. The principal entities directly involved in the program.
 - c. The population and area served or protected by the program, including a map if appropriate.
 - d. The surface or ground water bodies protected.
 - e. A description of the salient features and function of the program.
 - f. A description of the objectives of the program and how they were met.
 - g. The program's total cost and financing method.
 - h. The date the program was completed or placed in operation.
8. Documentation of the beneficial effects of the program, focusing on water pollution control through either prevention or correction.

Items 6, 7, and 8 should be presented in not more than ten double-spaced pages of text, exclusive of graphics. Unusual expense in preparing the graphics of the submittal is not necessary. Items 1 through 8 will be used by the WEF Awards Subcommittee to screen the entries to three or fewer finalists. Each finalist may be requested to submit six copies of the following supplemental information:

1. Five 8 x 10 inch high quality black and white photographs of the program or project, including at least one aerial view.
2. A set of ten color slides illustrating the program and, to the extent possible, "before" and "after" water quality conditions. It is strongly suggested that all photographs and slides be prepared by a professional photographer.
3. A press release, up to two pages, double-spaced, describing the program and its results. The press release should be written to communicate with the general public, not a professional audience.
4. The name of a representative of the sponsor who can be contacted for additional public relations information.

All entries, including photographs, will become the property of the Water Environment Federation and will not be returned.

Nomination Deadline: Nomination materials must reach the WEAT Awards Committee by March 1.

Send seven (7) copies of nomination materials to:

WEAT Awards Committee
Attn: Bob Hill, Chair
EMA, Inc.
1100 Chateau Woods Parkway
Conroe, TX 77385
Phone: 281-300-8367
E-mail: bhill@ema-inc.com

INDUSTRIAL WATER QUALITY ACHIEVEMENT AWARD

The Water Environment Federation's **Industrial Water Quality Achievement Award** is presented to a corporation and, if applicable, to its engineering firm that best demonstrates significant, lasting, and measurable excellence in water quality improvement or in the prevention of water quality degradation as demonstrated by innovative design and operation of an industrial wastewater, pretreatment or source prevention program.

Criteria:

- I. The program should be operated by an industry or show significant input by industry.
- II. Joint awards between industrial and engineering consultants will be made for innovative designs or process alterations or management.
- III. The program must lie within the boundaries of one or more Member Association (s) sponsoring the nomination. *For example, the Water Environment Association of Texas is a Member Association.*
- IV. A program is eligible during a five-year period immediately after documented results become a matter of public record. Two renominations may be made.
- V. The program must demonstrate a significant achievement in design, operation, or process change resulting in demonstrated long-term water quality improvement. The application should give significant detail as to the nature of the engineering or scientific advances leading to the improvement. Examples of criteria are one or more of the following:
 1. Detailed summary data showing significant reduction in classic macro pollutants, e.g. BOD, N, P, TS discharged to the receiving stream or municipal sewer.
 2. Detailed summary data showing significant reduction in micro pollutants, e.g. chlorinated hydrocarbons, pesticides, metals, or hazardous compounds to the receiving stream or municipal sewer.
 3. A method of source reduction by process alternation which demonstrates reduction of water used or water pollution.
 4. A method of source reduction by product alternation which demonstrates reduction of water used or water pollution.
 5. A method of materials recycling resulting in lower water use, or lower water pollution generation.
 6. A method of waste water treatment involving energy saving without loss of efficiency.
 7. Innovations resulting in the protection of groundwater, soil, or air from a new or existing industrial wastewater treatment facility.
 8. An environmental management strategy or training program that increases environmental awareness and results in significant source reduction or water pollution prevention.

The Body of the Nomination must include the following:

1. Letter of acknowledgement of nomination from a responsible member of the potential award recipient.
2. Problem statement and program goals.
3. Problem solution.
4. Unique scientific or engineering or management skills embodied in the program.
5. Evidence of attainment of goals (at least one year of data).
6. External references from a municipal, state or federal agency.
7. Summary of why the program is worthy of award.

Nomination Deadline: Nomination materials must reach the WEAT Awards Committee by March 1.

Send Seven (7) Copies of Nomination Materials to:

WEAT Awards Committee
Attn: Bob Hill, Chair
EMA, Inc.
1100 Chateau Woods Parkway
Conroe, TX 77385
Phone: 281-300-8367
E-mail: bhill@ema-inc.com

INNOVATIVE FACILITY DESIGN

The Water Environment Federation's **Innovative Facility Design** award is given in memory of George J. Schroepfer, the third President of the Water Environment Federation and an educator who stressed the economics in design of wastewater facilities.

Criteria:

- I. Nominee shall be an engineering consultant, municipal engineer, or industrial engineer who is a professional engineer in responsible charge of the design of facilities for the conveyance, treatment or disposal of wastewater and/or treatment residues.
- II. Nominee shall have demonstrated excellence in conceiving and directing the design of a project to achieve substantial cost savings or economic benefit over other alternatives, while achieving environmental objectives.
- III. Nominee must be a member of WEF.
- IV. Pertinent projects must have been in operation for a period of one year and not more than five years.

The Body of the Nomination must include the following:

1. One page biography of the nominee
2. Specific reasons for nomination (one page maximum)
3. Any other supporting material required under criteria or that might be helpful in the selection process.

Nomination Deadline: Nomination materials must reach the WEAT Awards Committee by March 1.

Send seven (7) copies of nomination materials to:

WEAT Awards Committee
Attn: Bob Hill, Chair
EMA, Inc.
1100 Chateau Woods Parkway
Conroe, TX 77385
Phone: 281-300-8367
E-mail: bhill@ema-inc.com

GORDON MASKEW FAIR MEDAL

The primary purpose of the Water Environment Federation is education. An important part of the Federation's involvement in education begins at the university level with the education of engineering students.

The Water Environment Federation's **Gordon Maskew Fair Medal** is named in honor of Dr. Gordon Maskew Fair, a professor of sanitary engineering at Harvard University who achieved exceptional results in preparing students for the professional field of sanitary engineering. Beyond the purely technical information, he imparted to his students a desire for environmental harmony and taught them to use their engineering skills toward the realization of that end. Dr. Fair's insight into the capabilities and limitations of the field of sanitary engineering inspired research and investigation into emerging areas of concern. This medal commemorates Dr. Fair's contributions and likewise the contributions of his fellow educators.

Criteria:

- I. Documentation of worthy accomplishments in the training and development of future engineers (Detailed Résumé or CV).
- II. Must be a member of the Water Environment Federation.

The Body of the Nomination must include the following:

1. One page biography of the nominee
2. Specific reasons for the nomination (one page maximum)
3. Any other supporting material required under criteria or that might be helpful in the selection process.

Nomination Deadline: Nomination materials must reach the WEAT Awards Committee by March 1.

Send seven (7) copies of nomination materials to:

WEAT Awards Committee
Attn: Bob Hill, Chair
EMA, Inc.
1100 Chateau Woods Parkway
Conroe, TX 77385
Phone: 281-300-8367
E-mail: bhill@ema-inc.com

PUBLIC EDUCATION AWARD

The Water Environment Federation's **Public Education Award** recognizes Federation members for significant accomplishments in promoting awareness and understanding of water environment issues among the general public, through the development and implementation of public education programs. There are three categories of awards: Individual, Member Association, and Other.

Categories: There are three categories of awards: **Individual, Member Association (WEAT), and Other.**

- I. **Individual** – Recognizes an individual Federation member who has made a significant contribution to the public education effort, promoting awareness and understanding of water environment issues among the general public, through the development and implementation of public education programs.
- II. **Member Association** – Recognized the Member Association that has made a significant contribution to the public education effort, promoting awareness and understanding of water environment issues among the general public, through the development and implementation of public education programs.
- III. **Other** – Recognizes organizations, groups of individuals, events, campaigns, or other persons or efforts that make a significant contribution to the public education effort, but that do not fit categories I or II.

Criteria: The criteria are the same for each category.

- I. Documented achievements of public education activities in the water environment field.
- II. Identification and description of exceptional efforts to educate the public on water environment issues.
- III. The activity or effort must have been implemented within the two years immediately prior to nomination. Specific programs are eligible for nomination only once.
- IV. If an individual, must be member of the Water Environment Federation.
- V. Entries must include:
 1. A detailed narrative description of the activities or efforts, including the objective and results.
 2. Eleven (11) copies of associated program materials.
 3. Documented evidence of the program's accomplishments.

The Body of the Nomination must include the following:

1. One page biography of the nominee.
2. Specific reasons for the nomination (one page maximum).
3. Any supporting material required under criteria or that would be helpful in the selection process.
4. The use of videotapes and/or audiotapes is discouraged. If you must submit this type of nomination material, you must include the specified number of copies.

Nominations Deadline: Nomination materials must reach the WEAT Awards Committee by March 1.

Send Eleven (11) Copies of Nomination Materials to:

WEAT Awards Committee
Attn: Bob Hill, Chair
EMA, Inc.
1100 Chateau Woods Parkway
Conroe, TX 77385
Phone: 281-300-8367
E-mail: bhill@ema-inc.com

GEORGE BRADLEY GASCOIGNE MEDAL

The Water Environment Federation's **Gascoigne Medal** was established in recognition of George Bradley Gascoigne, a prominent consultant who exhibited a great deal of interest in the operation of wastewater treatment plants.

This medal is awarded to the author(s) of an article that presents the solution of an important and complicated operational problem within a full-scale, operating wastewater treatment plant that is appropriately staffed.

Criteria:

- I. Must be a member of a Federation Member Association (the Water Environment Association of Texas, for example).
- II. Papers must demonstrate a sound problem solving technique and should encompass the recognition and definition of the problem.
- III. The work should describe the rationale of the solution as well as verification of its successful implementation.
- IV. The solution may include changes in operation procedures and incorporation of minor plant additions, modifications, and improvements, including the judicious application of chemicals.
- V. Articles published in a Federation periodical during the calendar year immediately prior to its consideration are eligible for nomination. Nominations are solicited for articles published in Member Association publications (*The WEAT Pipeline*, for example).

The Body of the Nomination must include the following:

1. Specific reasons for the nomination (one page maximum)
2. Any other supporting material required under criteria or that might be helpful in the selection process.

Nominations Deadline: Nomination materials must reach the WEAT Awards Committee by March 1.

Send Seven (7) Copies of Nomination Materials to:

WEAT Awards Committee
Attn: Bob Hill, Chair
EMA, Inc.
1100 Chateau Woods Parkway
Conroe, TX 77385
Phone: 281-300-8367
E-mail: bhill@ema-inc.com

PHILIP F. MORGAN MEDAL

The Water Environment Federation presents awards for research or projects that make an important contribution to the existing knowledge of wastewater collection and treatment techniques. The Water Environment Federation's **Philip F. Morgan Medal** honors Philip F. Morgan, who served with distinction as professor of sanitary engineering at the State University of Iowa from 1948 to 1961. A respected practical researcher, he maintained a strong interest in plant operation.

The medal recognizes valuable contributions to the in-plant study and solution of an operational problem. Awards are given in two categories: (1) work accomplished in plants serving more than 5,000 people, and (2) work accomplished in plants serving fewer than 5,000 people.

Criteria:

- I. Must be a member of a Federation Member Association (*the Water Environment Association of Texas, for example*).
- II. Nominations must demonstrate originality, significance, comprehensiveness, effort, and most importantly, the verification of an idea.
- III. The solution should involve the use of innovative technological methods, be generally applicable, and increase plant efficiency. Publication of a paper is **not** required, but supporting evidence must accompany each nomination.

The Body of the Nomination must include the following:

1. One page biography of the nominee
2. Specific reasons for the nomination (one page maximum)
3. Any other supporting material required under criteria or that might be helpful in the selection process.

Nominations Deadline: Nomination materials must reach the WEAT Awards Committee by March 1.

Send Seven (7) Copies of Nomination Materials to:

WEAT Awards Committee
Attn: Bob Hill, Chair
EMA, Inc.
1100 Chateau Woods Parkway
Conroe, TX 77385
Phone: 281-300-8367
E-mail: bhill@ema-inc.com

THOMAS R. CAMP MEDAL

The Water Environment Federation presents awards for research or projects that make an important contribution to the existing knowledge of wastewater collection and treatment techniques. The Water Environment Federation's **Thomas R. Camp Medal** was established in honor of Thomas R. Camp, an outstanding educator, consultant, and writer whose contributions to applied research have guided design criteria in many aspects of water pollution control.

The medal is awarded to a member who demonstrates a unique application of basic research or fundamental principles through the design or development of a wastewater collection or treatment system.

Criteria:

- I. Must be a member of a Federation Member Association (*the Water Environment Association of Texas, for example*).
- II. Nominations must demonstrate a unique application of basic research or fundamental principles through the design or development of a wastewater collection or treatment system.
- III. Nominations must include a complete project description.

The Body of the Nomination must include the following:

1. One page biography of the nominee
2. Specific reasons for the nomination (one page maximum)
3. Any other supporting material required under criteria or that might be helpful in the selection process.

Nominations Deadline: Nomination materials must reach the WEAT Awards Committee by March 1.

Send Seven (7) Copies of Nomination Materials to:

WEAT Awards Committee
Attn: Bob Hill, Chair
EMA, Inc.
1100 Chateau Woods Parkway
Conroe, TX 77385
Phone: 281-300-8367
E-mail: bhill@ema-inc.com

COLLECTION SYSTEM AWARD

The Water Environment Federation's **Collection System Award** is presented to an individual for contributions to the advancement of the state of the art of wastewater collection.

Criteria:

- I. Nominee must be a member of the Water Environment Federation.
- II. Documentation and supporting information on the contribution.
- III. The nominee's area of service must have been in any one or more of the following areas:
 - Management
 - Overall Planning
 - Operation and Maintenance
 - Facility Design
 - Education
 - Training
 - Research
- IV. Publication in a Water Environment Federation periodical of a formal report is **not** required, but **is** desirable.

The Body of the Nomination must include the following:

1. One page biography of the nominee
2. Specific reasons for the nomination (one page maximum)
3. Any other supporting material required under criteria or that might be helpful in the selection process.

Nominations Deadline: Nomination materials must reach the WEAT Awards Committee by March 1.

Send Seven (7) Copies of Nomination Materials to:

WEAT Awards Committee
Attn: Bob Hill, Chair
EMA, Inc.
1100 Chateau Woods Parkway
Conroe, TX 77385
Phone: 281-300-8367
E-mail: bhill@ema-inc.com

HAZARDOUS WASTE MANAGEMENT AWARD

The Water Environment Federation's **Hazardous Waste Management Award** recognizes an individual of his/her efforts in promoting quality technical and/or management performance in activities and professionalism within or on behalf of the field of Hazardous Waste Management.

Criteria:

- I. Nominee must be a member of the Water Environment Federation.
- II. Demonstrated efforts to upgrade professionalism for and among peers.
- III. Organized/actively participated in professional groups dedicated to hazardous waste management.
- IV. Disseminated technical and/or management information within the field.
- V. Developed/participated in programs to inform and educate the public about hazardous waste management.
- VI. Found means of organizing, funding and implementing effective private and public programs to solve hazardous waste problems.
- VII. Attracted professionals of many disciplines to participate in professional programs and activities in hazardous waste management.

The Body of the Nomination must include the following:

1. One page biography of the nominee
2. Specific reasons for the nomination (one page maximum)
3. Any other supporting material required under criteria or that might be helpful in the selection process.

Nominations Deadline: Nomination materials must reach the WEAT Awards Committee by March 1.

Send Seven (7) Copies of Nomination Materials to:

WEAT Awards Committee
Attn: Bob Hill, Chair
EMA, Inc.
1100 Chateau Woods Parkway
Conroe, TX 77385
Phone: 281-300-8367
E-mail: bhill@ema-inc.com

INNOVATIVE TECHNOLOGY AWARDS

The Water Environment Federation present annual **Innovative Technology Awards** to Associate Members who have introduced new innovative products or services related to the construction, operation, or maintenance of water pollution control facilities.

Categories Include:

- **Instrumentation** – scientific instruments used either in the laboratory or for control of the different treatment processes
- **Process Equipment** – equipment used in the treatment plant to remove impurities from wastewater
- **Collection Systems** – sewers and pumping stations used to convey wastewater from its source to the treatment plant
- **Solids Handling/Disposal** – process of removing a part of the water in the accumulated solids from the wastewater treatment plant and the disposal of the resulting biosolids.

Criteria:

- I. The products or services must demonstrate an innovative aspect utilizing new ideas, methods, alterations and/or unique changes from existing systems.
- II. The products or services must have been in full-scale operation at a wastewater treatment facility or in a collections system for a minimum of one year.
- III. The products or services are eligible for a five-year period immediately after documented results from a full-scale installation become a matter of public record. Two re-nominations may be made.
- IV. The products or services must demonstrate a significant achievement in design, operation, maintenance or process change resulting in demonstrated long-term water quality improvement. The application should give significant detail as to the nature of the engineering or scientific advances leading to the improvement.

The Body of the Nomination must include the following:

1. Documentation stating specific reasons for nomination. Supporting documentation required under criteria, i.e., detailed summary data showing significant reduction in classic macro pollutants, BOD, N, TS discharged to the effluent or in the sludge.
2. Detailed summary data showing significant reduction in micro pollutants, chlorinated hydrocarbons, pesticides, metals, or hazardous compounds by the products or services; Method of wastewater treatment or sludge handling/disposal that maintains efficiency and results in lower capital, operating or maintenance costs as a result of using the products or services.

Nominations Deadline: April 1.

Do not send nominations to the Water Environment Association of Texas Awards Committee. Nominations should be sent directly to the Water Environment Federation Awards Committee by the Sponsor or Associate Member who designed the innovative products or services.

Send six (6) copies of nomination material to:

Water Environment Federation
Awards Program
601 Wythe Street
Alexandria, Virginia 22314-1994
Phone: 703-684-2477

**WATER ENVIRONMENT FEDERATION
QUARTER CENTURY OPERATORS' CLUB**

One of the ways the Water Environment Federation honors operators of wastewater treatment plants for their service and dedication in a difficult and dangerous field is through membership in the Quarter Century Operators' Club. This Club is a group of members of any Member Association (WEAT, for example) or a Professional Wastewater Operations member of the Water Environment Federation. The Club was created under the sponsorship of Frank Woodbury Jones, who served as the Club's first registrar.

Eligibility Requirements

Candidates for membership in the Quarter Century Operators' Club must meet the following qualifications:

1. Must be a member of the Water Environment Federation for a minimum of five years.
2. Must have been a significant, full-time participant in the water pollution control industry for a period of 25 years (as of July 1 of the year applying), 10 of which must have been actively involved in the day-to-day collections, maintenance, operations, laboratory, or management of a wastewater transportation or treatment facility. Include military service if it was spent working in the area of wastewater. If not, include a maximum of three (3) years.
3. Must submit an application for membership consideration to the Federation office by JULY 1 of the year to be considered at the Annual Meeting of the Federation Board of Directors. **THE APPLICATION MUST BE ACCOMPANIED BY A COMPLETE AND DETAILED RESUME OF EXPERIENCE.**

APPLICATION FOR MEMBERSHIP

Name _____ Present Occupation _____

Address _____ Telephone _____

_____ Fax Number _____

_____ WEF Member ID _____

_____ Member Association _____

Have you been actively involved in the hands-on, day-to-day operation, laboratory, collection, maintenance or management in wastewater transportation or treatment works for at least 10 years? ____ Yes ____ No

Where, including military service, and for what period? (Give Dates) _____

What type of works did you operate, maintain or manage? _____

Have you spent the remainder of the 25 years in significant participation in one (or more) substantial aspect(s) of water pollution control? ____ Yes ____ No

References (at least three, preferably members of the Club)

Name/Phone # _____ Name/Phone # _____

Name/Phone # _____ Name/Phone # _____

Signed _____ Date _____
