## Potential Rule Changes for Direct Reuse Projects

---

### WEAT Presents – Roger E. Schenk, CDM

May 18, 2004 at 6:00 p.m.

Joe C. Thompson Center – University of Texas at Austin

This month, Roger Schenk will give a presentation entitled “**Chapter 210 Reuse Rules Revisions.**” The meeting is open to anyone in the Central Texas area interested in water and wastewater issues. The evening will include a social gathering and dinner followed by Mr. Schenk’s presentation and a short business meeting. The price of admission is only \$10.00.

Our March meeting had another great crowd in attendance and we expect a similar response this month. We need your help in getting an accurate count. **If you plan to attend the meeting, please contact Teresa Jones at (512) 322-5826 or at [central@weat.org](mailto:central@weat.org) by Wednesday, May 12, 2004.**

### About Roger Schenk . . .

Mr. Roger Schenk is a senior environmental scientist in Texas and is employed with Camp Dresser & McKee, Inc. (“CDM”) in Austin, Texas. He has over 19 years experience in this field. He has served as a regulatory and permitting specialist for more than 30 Texas-based clients in negotiation with the USEPA and the TCEQ within the fields of water, wastewater, reclaimed water, and storm water. He currently serves as the chair of the 30 TAC § 210 (Use of Reclaimed Water) Rules Revision Committee that is supported by the Texas AWWA (TAWWA) Water Conservation & Reuse Division and the Water Environment Association of Texas (WEAT).

Roger has a BA in Geography from Southern Illinois University at Carbondale and a Masters Degree from the University of Texas at Austin, also in Geography.

---

#### **Meeting Sponsors:**

**Camp Dresser & McKee, Inc.** CDM is a full-service consulting, engineering, construction, and operations firm helping public and private clients improve the environment and infrastructure. CDM provides services in water management; environmental management; transportation; construction, design/build, and operations; information management and technology; institutional management consulting; facilities design; and geotechnical engineering. Founded in 1947, CDM is an employee-owned corporation with over 100 offices and a multi-disciplinary staff of 3,600 worldwide. Our projects, which range from small, short-term solutions to complex, ongoing environmental and infrastructure management programs, are all executed with a common focus: *to provide exceptional client service.* At CDM, exceptional client service means understanding the conflicting demands of balancing infrastructure needs and environmental and public health protection

with fiscal reality. And it means being flexible in project delivery by offering start-to-finish services or by supporting any individual phase of a larger program. CDM's project teams integrate the appropriate multidisciplinary resources and streamline all efforts throughout the entire project life cycle. The result is the best total solution for each and every client.

**K2 Partners, LLC.** K2 is a full service reprographics shop with capabilities of scanning, digital color copying / printing, CAD plotting (bw or color), and binding of all construction documents, specifications, reports, etc. from a letter size sheet to the large architectural "E" size sheets and larger. K2 utilizes Océ quality and speed to produce our large format prints. Color graphics are more a part of everyone's needs today. K2 also provides large format small format color printing and custom graphics as well. We are uniquely qualified as a reprographics shop due to our extensive background in design and CAD. We know what it takes to produce the design drawings and report graphics that go into your final product.

Central Texas Section Officers are listed below. If you are interested in volunteering, please contact any officer.
