Ms. LaDonna Castañuela
Chief Clerk's Office (MC 105)
Texas Commission on Environmental Quality (TCEQ)
P.O. Box 13087
Austin, Texas 78711-3087

Subject: Petition for Rulemaking/Docket Number: 2007-021-PET-NR
City of Midland—Authorizing the Construction and Operation of
Reclaimed Water Production Facilities

Dear Ms. Castañuela:

The Water Environment Association of Texas (WEAT) is writing in support of the referenced Petition for Rulemaking, filed on behalf of the City of Midland, which would authorize the construction and operation of reclaimed water production facilities. We believe this petition proposes a more cost-effective and efficient way to provide non-potable water for re-use than current practices. Our Government Affairs Committee and Management Review Committee support the requested general permit regulatory mechanism.

We request the commission's favorable consideration of this proposal. Please feel free to contact me at 512-924-2102 or carbat@beecreek.net if you have any questions or need any additional information.

Sincerely,

Carol Batterton
Executive Director
