“The best mix of presentation and table discussion/activities that I’ve heard at any workshop recently!”

“As a new manager, the training was incredibly helpful and definitely something we can use at our small but growing utility”

“As a utility young professional, this workshop provided me with the tools to take a step back and seriously consider approaches to utility management”

RESOURCES

The Collaborating Organizations have created materials that help utilities address challenges and capture improvement opportunities. These materials include *Effective Utility Management Primer*. You can find these resources at www.WaterEUM.org.

Workshop participants also learn about other resources available to support EUM implementation efforts, including *Moving Toward Sustainability: Sustainable and Effective Practices for Creating Your Water Utility Roadmap*.
