

Managing Biosolids and Public Perception: How to Woo with Poo!

June 6 - 7, 2023 | Texas Star | Euless, TX

Registration & Sponsorship

WEAT is excited to bring national experts to Texas for a comprehensive discussion on the challenges and opportunities in managing biosolids and improving public understanding.

The program will include technical presentations, a panel discussion, and three interactive, hands-on workshops where you'll have the opportunity to learn from industry experts, collaborate with peers, and enhance your understanding of biosolids and related communications planning, execution, and community engagement. The conference agenda can be [found here](#).

Featured speakers will include...

Cat Gowan
King County, WA

Chris Peot
DC Water

Kirsten Williams
DC Water

Tammy West
Austin Water

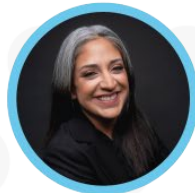

Ian Moede
Austin Water

Joseph Fielding
Trinity River Authority

Todd Williams
