SPONSORSHIP

Filtration for Industrial Use

November 15, 2021

This presentation, produced by the WEAT Industrial Committee, will provide an overview of filtration technologies and an in-depth look at how pile cloth media filtration is being used for industrial facilities. It will discuss how these filters are designed, important operational considerations, look at applications, review several case studies, and provide time for questions and answers around the technology. This presentation will bring attendees up to date with how this technology has evolved significantly with an increasing number of industrial facilities adding filtration for process water and wastewater treatment.

Speaker: Mark P. Hughes, P.E., Aqua-Aerobic Systems, Inc.

Moderators: Jonathan Sandhu, Gulf Coast Authority & Tres Koenings, Plummer Associates
