

# Biosolids Beauty Contest at

## Show off your solids at Texas Water 2024!

### Categories include:

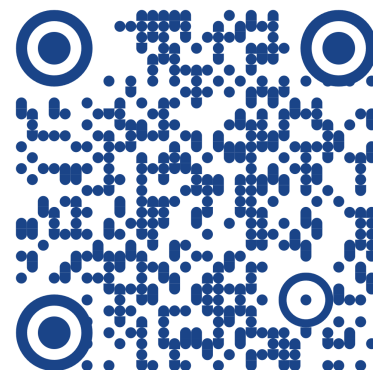

- Class B
- Class A/AB
- Overall Winner
- People's Choice
- Most Creative Presentation

The Biosolids Beauty Pageant's goal is raising awareness and providing the deserved recognition for the great work utilities do with processing biosolids. Biosolids are a nutrient rich by-product from the wastewater treatment process that has many reuse benefits.

Here are the minimum requirements to enter the BBP:

- Must be Class B, AB or A biosolids
- Minimum cake concentration of 16% total solids
- Utilities with multiple plants may enter one sample for each plant
- Post processing, such as composting, is allowed.
- Ability to hand deliver a sealed, disposable 1 qt container (or less) and/or your display to the Registration Area before Wednesday, April 10th at 11 AM.

Additional information & entry form can be found here:

Container and biosolids sample will be thrown away after judging.
