WEAT/TAWWA Imagine A Day Without Water Art Contest

“The inspiration for my art is earth split in half. The bad earth is when all the trees are dying and the good earth is when the trees are growing because they have water and they grow and grow so earth can be good.”

Kevin, Sam Houston Elementary (Dallas, TX)

“Water is important because every one needs to be hydrated. Without water people could get really sick or even die. Our bodies use water for breathing, sweating, and digestion.”

Reva, Elsa England Elementary (Austin, TX)

Crying Earth

Jennifer, Fern Bluff Elementary (Round Rock, TX)

# JANUARY

S M T W T F S

"Water is so important for many different reasons. Water is used from drinking to growing crops. People say that every life cycle starts with the sun, but if there was no water the plants would die and so will all the animals. Lots of lives depend on water."

**I  
pledge  
to be  
conscious  
about the  
amount of water I  
use every day. I promise  
not to waste water  
because I understand that  
every drop of water is valuable  
to human beings and other living  
creatures on this planet. I will  
shorten my shower, turn off the  
water while brushing teeth, throw  
trash in the can instead of flushing  
it down the toilet, and remind my  
family and friends to save  
water.**
