

Introduction to WEAT

**Protect Water,
Protect Texas.**

Clean water is an essential part of Texas and the high quality of life our residents enjoy each and every day. It is important to Texas' economy and growth. Having clean water depends on the committed individuals and vital infrastructure that protect and maintain our clean water supply now and into the future.

WEAT comprises water environment professionals of varying backgrounds such as engineers, scientists, operations and collection system specialists, maintenance workers, professors, researchers, and utility managers who work together for one goal: clean water.

For more than 55 years, WEAT has been at the forefront of solving Texas' water quality challenges to ensure future generations have sustainable and safe water for drinking, agriculture, and recreation.

3100+

trusted local water professionals

55 Years

of commitment to our shared water resources

82% increase

in state population over the next 50 years

Continuous

need for reliable water infrastructure

Educate

We inspire Texans of all ages to take ownership of the water environment where we each live by building awareness of the value of water in our lives and how we can help protect our water resources.

Advocate

We partner with like-minded organizations, track progress of regulatory and legislative bills, and provide expert testimonies in support of responsible water policies and practices.

Engage

We provide members with critical updates on emerging issues as well as exclusive professional development opportunities to keep you informed in an ever-changing industry.

WEAT is the resource for preserving, enhancing, and advocating water quality in Texas.

WEAT Committees

WEAT committees are responsible for guiding the Association's technical and educational resource development, conference offerings, and public education resources. Several committees, such as the Government Affairs, Strategic Planning, Membership, and Young Professional committees, help guide WEAT policy development, put on WEAT events, and make sure that WEAT meets the needs of members. All committee Chairs, Co-Chairs and Vice Chairs are listed below.
